

IRIS8401

Description

Skin dryer

Product features

- Design of miniature circuit, unit running automatically with microcomputer, intelligently.
- Inner heated recycle principle, energy-saving.
- Over-heating protection & over-current protection , use safety .
- Manual operation control wind power, stepless speed change .
- Cut power over 15min.

OULON[®]

Technical Information

1	Power Supply	AC220V/50Hz
2	Power rating	1000W
3	Supply air temperature	45-60°C
4	Electric motor rev.	4500rpm
5	Temperature of over-heat	70±5°C
6	Tube size	1000mm
7	Material of cover	Engineering plastics(ABS)
8	Product size	260*180*100mm
9	Protection class	IP22/Grounding
